

# Mould As A Symptom

# Traditional Indigenous Perspectives

- Living in the Moment is a Way of Life
- Mental Fortitude builds Character
- Less is More and Balance is Everything
- Hospitality is Top Priority
- Traditions are a way to connect with Mother Earth and Creation

# Societies Facing Enormous Pressures

- Restoring and Severing of Relationships
- Conditions for Erosion of Social Structures
- Resiliency and Healing of Trauma
- Reclamation, Marginalization and Displacement

Growth and Health Status Gap

# Migration and Translocation Shock

- Traditional to Contemporary
- Rural – Northern to Urban
- Wealth to Chronic Poverty
- Collectivism to Individualism

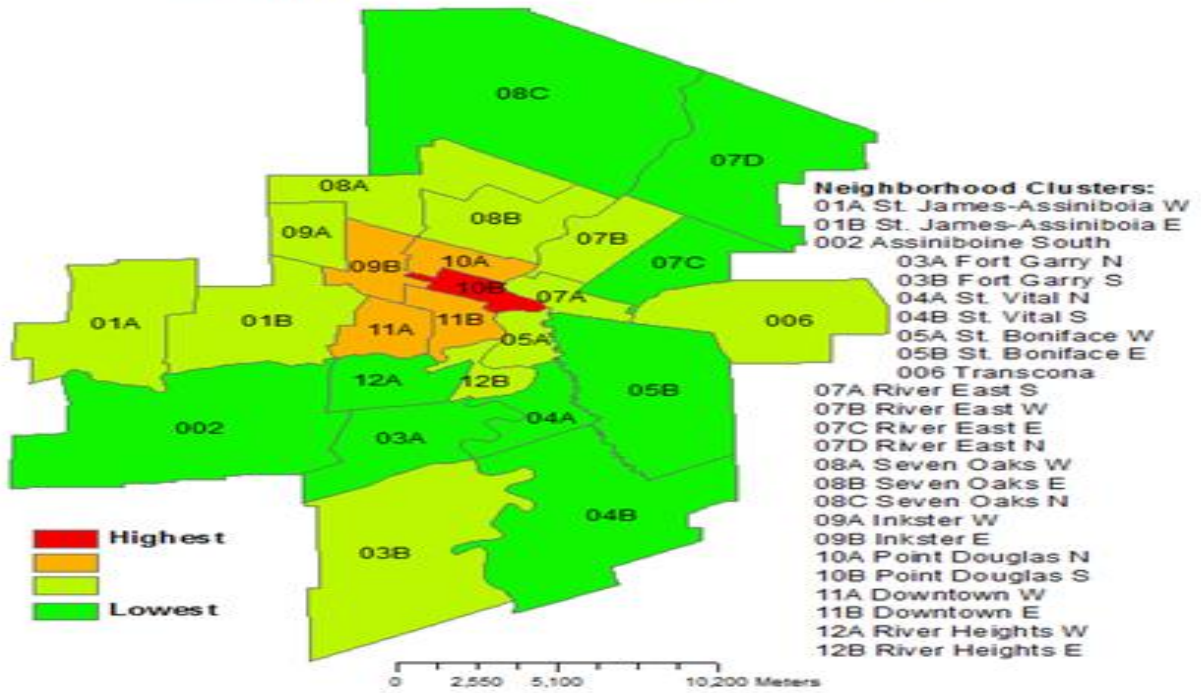

## Potential Years of Life Lost (PYLL) by Winnipeg Neighbourhood Cluster

Age- and sex-adjusted annual rate of PYLL per 1,000 residents aged 1-74, 2002-2006 & 2007-2011

## Potential Years of Life Lost by Winnipeg Neighborhood Cluster, 2007-2011

# Equal vs Equitable

# Health for All = Health Equity

## *A Human Right*

- Health Equity means that all people can reach their full health potential and should not be disadvantaged from attaining it because of their social and economic status, social class, racism, ethnicity, religion, age, disability, gender, gender identity, sexual orientation or other socially determined circumstance.

## HEALTH EQUITY

Large gaps exist in Winnipeg between those experiencing the best and poorest health. People living in some areas of Winnipeg have nearly 19 years lower life expectancy than people living in other parts of the city. Many of the gaps arise from unfair, unjust and modifiable social circumstances.

**It doesn't have to be this way.**
